DATA SHEET

PRO-PAK Asphalt Repair

DESCRIPTION

PRO-PAK Asphalt Repair is a cold applied high performance asphalt repair designed for repairing potholes over 1" in depth in asphalt pavements. Use in driveways, parking lots, walkways etc.

INSTALLATION

Prepare repair area by squaring off all vertical edges and removing any loose materials and debris. Repair area may be damp but should be free of standing water prior to application. Pour PRO-PAK Asphalt Repair directly into repair area filling $\frac{1}{2}$ " above surrounding pavement. Tamp with hand tamper, roller or vehicle tires to compact repair material flush with the existing pavement.

PRECAUTIONS

Do not apply less than $\frac{1}{2}$ ".
PRO-PAK Asphalt Repair should not be used in unconfined areas such as curbs or speed humps.
Keep out of reach of children.
Use only with adequate ventilation.
Avoid prolonged contact with skin and clothing.

COVERAGE and PACKAGING

50 lb plastic bag.
60 bags per pallet.
One 50lb bag of PRO-PAK Asphalt Repair will cover approximately 5 square feet at a depth of 1" or 2.5 square feet at 2".

LIMITATIONS

Recommendations for use of this product are based on tests we believe to be reliable. Manufacturer and seller are not responsible for results where the product is used under conditions beyond our control. Under no circumstances will BONDED MATERIALS COMPANY be liable for damages to anyone in excess of the purchase price of the product.

The BONDED MATERIALS product recommended above is the finest that modern scientific techniques and experience have developed. They are "professional products", specified and applied by professionals to do the most effective and lasting job possible.

Every reasonable precaution is taken in the manufacture of our products and compiling of data to assure that they shall comply with exacting standards. Information given is correct to the best of our knowledge and the products, as sold, are satisfactory for the purpose proposed. However, no guarantee of the results, using these products and data, is given because every possible variation in the methods of their use or conditions under which they are applied cannot be anticipated. BONDED MATERIALS is not responsible if the material should be used in a manner to infringe any patent held by others.
